---	----

As a new editor of Szene, putting together the first 2013 edition has been a steep learning curve for me. Initially it was all slightly daunting but by now I have found my feet. I would like to thank everyone who has helped along the way and answered numerous questions, especially Christine EkinSmyth and Catherine Gosling. Also a big thank you to all contributors and of course the proof-readers for their invaluable help. I am really excited about this edition - there are many interesting articles, activities, reports and teaching resources. As you probably already know, two Szene editions will be published this year. Hopefully, the next one will be full of good ideas and suggestions, as this one. Please email me with comments, contributions, teaching resources and Lern-/Linktipps!

Maja Herr
